Description: High quality soccer development is HERE, right in your own back yard. The Colleyville Soccer JATO/STRICKER Academy offers professional coaching, no travel, the best facilities in the metroplex, and a quality environment. Our goal is to bring the soccer out in each player. Training of the younger age group requires a great deal of attention mixed with passion and enjoyment. The quality of development at a young age is vital to player success at the competitive level. Our progressive curriculum will allow each player to develop at a rate necessary to progress to the next levels.

CSA realizes just how important it is to nurture talent. The CSA objective of this program is to sustain and increase the participants in recreational soccer starting at the younger ages and continuing on into the older age groups. We have developed a true development program that fits into the schedule of a "younger" soccer athlete & the family. The Academy will present an ideal environment, providing these young players with the opportunity to improve their skills in an atmosphere to maximize development while making new friends and developing positive attitudes such as fair play, sporting behavior, and teamwork.

Join us each week as our focus will be on the players and in allowing these youngsters the freedom to play and compete on small fields. The small sided games will give all players an opportunity to constantly be involved and make a difference for their side.

We have a strong commitment to the future of soccer in our community and here with CSA. We will provide the expertise to develop technical excellence in these young players. Our team of dedicated, enthusiastic, energetic, and qualified staff coaches and players will help nurture these youngsters into quality rounded athletes of the world's greatest game.
